## **Asnt Visual Inspection**

Visual testing is the most commonly used test method in industry. Because most test methods require that the operator look at the surface of the part being inspected, visual inspection is inherent in most of the other test methods. As the name implies, VT involves the visual observation of the surface of a test object to evaluate the presence of surface discontinuities.

## **Visual Testing Examinations**

The American Society for Nondestructive Testing (ASNT) has an agreement with the American Welding Society (AWS) to provide access for AWS Certified Welding Inspectors (CWIs) and Senior Certified Welding Inspectors (SCWIs) to Visual Testing (VT) certification under the provisions of the ASNT Central

After the tank AY-102 leak, higher emphasis was placed on the visual inspection program. As a defense-in-depth, this emphasis increases the knowledge about base integrity of the remaining DSTs. Since more stress has been placed on the visual inspection program, ongoing improvements to the program are essential to determine the leak integrity of the remaining twenty seven DSTs.
