Best Lenses for Sony NEX-7 - Camera News at Cameraegg

I usually recommend Sony Alpha 7 cameras for the use with older manual lenses because they are the only ones with a full frame sensor and in my experience most older lenses work best on the larger sensor. But they still work very well on smaller format sensors as well, here are some of my older pictures all taken with a Sony Nex.

The rated List of Minolta MD/MC Lenses on ... - Manual Lenses

The most ergonomic lens I have tried on a NEX camera, is the Helios 40-2, 85mm f/1.5. It probably helps that the lens was never intended to be used any other way. The stop-down ring is of course part of the lens here, and it's slippery smooth and located at the front of the lens where I only need a fingertip to stop down after focusing.
