Why Apocalyptic Claims About Climate Change Are Wrong

(AN, p. 276) He attacks the finances of leading environmental groups and leaders like the late David Brower, arguing they have taken donations from fossil fuel companies to "greenwash the closure of nuclear plants." (AN, p. 205) And he attacks the motives, reputations, and science of many individual environmental and geophysical scientists whose work contradicts his arguments.

Book review: Bad science and bad arguments abound in ...

1. In his review of my new book, Apocalypse Never, at Yale Climate Connections, Peter Gleick accuses me of mischaracterizing environmentalism and misrepresenting climate science.He argues that I construct strawmen, promote nuclear energy above other energies, and engage in ad hominem (personal) attacks.. In fact, Gleick mischaracterizes Apocalypse Never, which accurately reflects the best ...

Bad science and bad ethics in Peter Gleick's Review of ...

Whatever the reason, when I saw "environmental apocalypticism" listed as a potential paper topic in a class in graduate school, I knew that it was something I wanted to explore further. Following that trail led me first to write about how fears of societal and ecological collapse associated with the environmental movement often blended both secular and religious elements.
