### **Explanations And Rules For Adding**

Exponents are used in many algebra problems, so it's important that you understand the rules for working with exponents. Let's go over each rule in detail, and see some examples. Rules of 1. There are two simple "rules of 1" to remember. First, any number raised to the power of "one" equals itself.

with the same base you can add the exponents. This means:  $4 \times 4 \times 4 \times 4 \times 4 \times 4$  or  $4 \cdot 4 \cdot 4 \cdot 4 \cdot 4 \cdot 4$  When you are dividing terms with the same base you can subtract the exponents.

### **WORKING WITH INTEGERS: 1. Adding Rules**

The last two examples showed us that taking away balloons (subtracting a positive) or adding weights (adding a negative) both make the basket go down. So these have the same result:  $(+6) - (+3) = (+3)$   $(+6) + (-3) = (+3)$  In other words subtracting a positive is the same as adding a negative.

Jugger is a sport inspired by the 1989 film *The Salute of the Jugger* (released as *The Blood of Heroes* in the United States), in which a game of the same name is played. The film version was invented by the film's writer-director, David Webb Peoples, especially for the movie. The transformation into a real sport happened independently in Germany and Australia.
