I'm using Jackson JSON library to convert some JSON objects to POJO classes on an android application. The problem is, the JSON objects might change and have new fields added while the application is published, but currently it will break even when a simple String field is added, which can safely be ignored.

java - Ignoring new fields on JSON objects using Jackson ...

The complaint claims the plaintiff suffers from "cognitive deficits" caused by lead poisoning. However, the complaint doesn't stop with blaming Jackson but also accuses the Mississippi State Department of Health of failing to warn Jackson citizens of "elevated lead levels" in Jackson's drinking water until February 2016 even though the samples were taken in the summer of 2015, thus exposing ...
