The Physics Classroom serves students, teachers and classrooms by providing classroom-ready resources that utilize an easy-to-understand language that makes learning interactive and multi-dimensional. Written by teachers for teachers and students, The Physics Classroom provides a wealth of resources that meets the varied needs of both students and teachers.

The Physics Classroom

A new ultrathin quantum dot light-emitting diode (QLED) that bends and creases like a piece of origami paper could be ideal for next-generation displays and foldable mobile phones. The device was made using laser etching, and researchers at the Institute of Basic Sciences in Korea say that the same ...
