Publications Max Neuhaus

Publications & Editions: Max Neuhaus In 2002, the Christine Burgin Gallery collaborated with Max Neuhaus to realize the reinstallation of his seminal sound work, Times Square. Internationally known since the 60s, Neuhaus was one of the first artists to work exclusively with sound as a medium outside traditional performance venues.

Max Neuhaus (August 9, 1939 – February 3, 2009) was an American classical musician and artist who was a noted interpreter of the experimental percussion music in the 1960s. He later created numerous permanent sound installations as "sound sculptures" of contemporary art Career. Neuhaus was known for his interpretations of experimental ...

Max Neuhaus - Wikipedia

The Bell Gallery is housed in the List Art Center, a multi-functional building that also includes classrooms, lecture halls and extensive studio space. Designed by internationally renowned architect Philip Johnson, the Center is located on the crest of College Hill, in close proximity to the RISD Museum and downtown Providence. The triangular jags of the roof line — with skylights installed ...

Taking the interactive open access journal Atmospheric Chemistry and Physics as an example, this study examines whether Thomson Reuters, for the Journal Citation Reports, correctly calculates the Journal Impact Factor (JIF) of a journal that publishes several versions of a manuscript within a two-stage publication process. The results of this study show that the JIF of the journal is not ...

The effect of a two-stage publication process on the ...

Artist Max Neuhaus' sound installation Times Square is a permanent contributor to the neighborhood's cacophony. Emitting from beneath a subway grate at the northern end of the pedestrian island on Broadway between 45th and 46th Streets, the piece is a soothing sound loop, often described as a hum, that the artist first installed in 1977.
