To Fit A Holden Engine

The Holden straight-six motor is a series of straight-six engine that were produced by General Motors-Holden's in Australia between 1948 and 1986. The initial Grey motor was so dubbed because of the colour of the cylinder block, later motors came in the form of a Red, Blue, Black, and the four-cylinder Starfire engine. These engines were fitted to all Australian designed Holdens of the same ...
